V/T Candidates Recommended by Allierich HENSE

NSA-75761, 1 August 1961 (para. 18, Attachment A)

We regret that we probably will be unable to comply with GULWING's request for a list of the V/T stay-behind candidates recommended to KEMM by Allierich HENSE. The ~~LEFT~~ files which presumably contain the desired information are now in retirement and occupy some 96 cubic feet of space. After studying the inventory of these records for class, we requested and later reviewed half a dozen folders pertaining to V/T matters, agent management, personnel questions, etc., and were confronted with literally hundreds of names, some of which were in close contact with the V/T program. None of these files, however, was there any indication of which name had been recommended by HENSE. If the files were more readily accessible or if they presented less of a monumental task for the requested return, we would be glad to persist toward the end of providing you with some kind of a reply for GULWING.
